Profile Summary

I am Akbar Kalani, an enthusiastic front-end developer with a strong passion for learning and progressing. I am committed to my work and take responsibility seriously, always striving to contribute to project development and improvement in the best possible way.

In addition to my technical expertise, I have a strong team-oriented mindset and good abilities in coordination and collaboration with my colleagues. I enjoy team challenges and am interested in the development and growth of our group.

I am looking an opportunity to apply my skills in a dynamic and creative environment and contribute to my personal and team development.
